

YOUR PLAN

Stop the Bleeding

One lead left unanswered is a no you never even heard.

THE STAKES

At **[\$[avg_deal_size]/deal]**, missing one lead this month costs you **[\$[avg_deal_size]** — over a year, that's **[\$[avg_deal_size x 12]**. Lost from replies alone.

YOUR 3 MOVES

- 1. Any message older than **2 hours** with no reply gets checked first, before everything else on your list.
- 2. Set the expectation up front: "Thanks for reaching out — I personally read every message. You'll hear back by **[specific time]**."
- 3. Never let a lead sit silent. If it's urgent or after hours, give them an alternate contact so nobody waits with no answer.

YOUR EXERCISE

Track one day of replies. Watch the gap.

Lead / source	Time received	Time replied	Gap

SET IT UP ON YOUR IPHONE

Settings › General › Keyboard › Text Replacement › tap +

Type the **Shortcut** field, and your phone fills in the **Phrase** — one reply in two keystrokes.

Type	It sends (phrase)
